PATCH Learning Objectives for Fellows:
Impacting Attitudes To Palliative Home Care for Older Adults

Fellows who train in the PATCH Program will develop greater:

1. Awareness of reasons patients might need care in the home
2. Awareness of the importance of family or other support systems in managing patients' care
3. Awareness of patients’ environment as potentially helpful or harmful to their health.
4. Awareness of the great heterogeneity of older persons and their homes
5. Awareness of the importance of cultural differences in patient decision-making
6. Awareness of the roles of interdisciplinary team members in home care
